PREFACE

Scope :

The Indian National Bibliography is an authoritative bibliographical record of current Indian publications in Assamese, Bengali, English, Gujarati, Hindi, Kannada, Malayalam, Marathi, Oriya, Punjabi, Sanskrit, Tamil, Telugu and Urdu languages, received in the National Library, Calcutta, under the Delivery of Books and Newspapers Act of 1954 (Act No. 27 of 1954 as amended by Act No. 99 of 1956). As the Assistant Editor for Gujarati was appointed only recently, books in that language could not be included in this issue. As regards the Assamese language, the position remains the same.

The following types of publications are excluded :

- (a) Musical Scores
- (b) Maps
- (c) Periodicals and Newspapers (except the first issue of a new periodical and the first issue of a periodical under a new title)
- (d) Keys and guides to text-books
- (e) Ephemeral material, such as Trade Catalogues, Telephone Directories, Reports and Financial Statements of Statutory Companies, Cheap novelettes and Publicity pamphlets

Transliteration :

Names of authors and titles of books in the Indian languages are transliterated into Roman script with diacritical marks wherever necessary.

The existing resources of type-faces in the Government Press have enabled us to carry out the transliteration into Roman script in a somewhat imperfect manner. Fortunately, the number of type-faces not available is very small and limited in number. The usual types (1) l, (2) m, (3) r, (4) t respectively, only four in number, have been used to indicate (1) the retroflex fricative in Malayalam and Tamil (2) the nasalization of the vowel in Bengali, Hindi, Oriya and Punjabi (3) the special 'r' in Malayalam and Tamil and (4) the alveolar 't' sound heard in doubling of the Special 'r' in Malayalam and Tamil as well as in the combination of 'n' and 'r' in Malayalam. It is important to note that the place of publication and the name of publishers have not been transliterated. It is hoped that a complete transliteration table, with the proper symbols, will be printed in the subsequent issues.

Arrangement :

This Bibliography consists of two parts, each divided into two sections, classified and alphabetical—the first part dealing with general publications and the second with Government publications including those of the quasi-government bodies.

In the classified sequence the entries are arranged by subjects according to the Dewey Decimal Classification. The verbal extension of Dewey class numbers is shown by '1' in parentheses, i.e. [1]. For example, 613.7[1] 'Yogic Exercises'. Here 613.7 stands for 'Physical Culture' and [1] stands for the expansion 'Yogic Exercises' which is the specific subject. This expansion has been used in such places where the most intensive Dewey number is found still too broad for the specific subject. The Colon numbers are also assigned at the right hand bottom corner of each entry against the language symbol.

The full information about a book is given in the classified section in the following order : The class number, the author's name, the full title, the place of publication, the publisher, the year of publication, the pages, the kind of illustrations, the size, the nature of binding, the price, the series and annotations wherever necessary. Whenever a certain piece of information has not been ascertained, blank square brackets in their respective places indicate the nature of information not available. Whenever no indication is given as to the nature of binding it is taken that the book is in sewed paper covers. The language of the book is denoted by symbols which are given at the left hand bottom corner of each entry.

Thus :

737.40954—India

Jenkins, G. K.

The coin types of the Śaka-Pahlava kings of India, by G. K. Jenkins and A. K. Nārāyaṇ. Varanasi, Numismatic society of India, 1957. xii, 47 p. 24.5 cm. 3.00 (Numismatic notes and monographs, 4).
(E) ND44,G,71

means :

737.40954 is the Dewey number standing for Indian Coins. "The coin types of the Śaka-Pahlava kings of India" is by two authors, viz.: G. K. Jenkins and A. K. Narayan. It is published in Varanasi by the Numismatic Society of India in 1957. It contains xii preliminary pages and 47 pages of text. Its height is 24.5cm. and its price is Rupees 3. As no indication is given to the nature of binding it is taken to be sewed paper covers. It is the fourth of the 'Numismatic notes and monographs'. 'E' denotes that the language of the book is English. ND44, G, 71 is the Colon number for Indian coins.

Abbreviations used are explained on page ix.

Author :

Under each specific subject the entries are arranged alphabetically by the names of authors. When the author of a book is known see under the name in the alphabetical section, that is the index. If the information in the author-index entry is found inadequate and fuller information is required, turn to the entry in the classified section. This can be easily found through the class number at the end of the author-index entry in the alphabetical section which is the connecting link between the author-index entry and the classified-entry. The number is to be read as a Decimal number. For example, 181.4 will be found after the number 180 and before the number 181.41.

It is to be specially noted here that where there are two or more works by the same author under a specific subject the name of the author is not repeated and the works are arranged alphabetically by their titles, e.g. :

Caṭṭopādhyāy, Śaratcandra, 1876-1938

Acalā, tr. from Bengali by R. Śaṇmukhasundaram, etc.
(Ta)

Amarnāth, tr. from Bengali by Dāūlāl Lāḍ, etc.
(H)

Devadāsan, tr. by N. V. Kṛṣṇa Vāriyar, etc.
(Mal)

Nārī kā mūlya. 2nd ed., etc.
(H)

Index-entries are also made under distinctive titles, editors, commentators, compilers, translators, series etc. In certain cases entries are made under the names of countries, cities and institutions which are considered to be the authors of publications. Journals, reports and transactions of societies are entered under the names of the Societies; and periodicals and anonymous works are entered under the title.

Subject :

The Indian National Bibliography gives an exhaustive index of subjects. The systematic step by step interpretation of the class numbers with their respective equivalents in terms in the classified Section helps the user to get into his specific subject. The alphabetical sequence includes all subjects which can be found in the classified sequence and directs the users through the class numbers to all the books in that particular subject listed in the classified section. For example, in the Index under the word 'India' is found a full list of the subjects where books in any way concerned with 'India' may be found, thus:

India : Administration .. 354.54
 India : Adult education .. 374.954
 India : Constitution .. 342.54
 India : Description .. 915.4

India : Economics .. 330.954
 India : Foreign relations .. 327.54
 India : Geography .. 915.4
 India : History .. 954

Acknowledgement:

The editors of the Bibliography are very grateful to the staff who got the manuscript ready for the press, and to the Manager of the Government of India Press, Nasik Road, and his staff for having successfully dealt with this very complicated piece of work.
